# GURUNATH TANGAWAR

**Frontend Angular Developer**

Hyderabad, India | +91 7522935014 | apexgurut@gmail.com
LinkedIn: linkedin.com/in/guru-tangawar-350b6625b | GitHub: github.com/guru-1212 | Live Product: ourpgtracker.in

## PROFESSIONAL SUMMARY

Frontend Angular Developer with 3.5+ years of experience building enterprise airline booking platforms for Flyadeal and Jazeera Airways, serving 10,000+ daily active users. Skilled in Angular, TypeScript, RxJS, NgRx, Angular Signals, and REST/GraphQL API integration, with 40+ reusable components built for a shared UI library. Experienced in Figma-to-UI implementation, performance optimization, Module Federation microfrontends, WCAG 2.1 accessibility, and unit testing with Jasmine, Karma, and Jest, with 100+ pull requests reviewed and 3+ junior developers mentored. Founder and developer of OurPGTracker, a live Angular + Firebase SaaS product with a paying customer managing 119 beds.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

**Frameworks & UI Libraries:** Angular, Ionic Framework, Angular Material, Tailwind CSS, Bootstrap, Kendo UI, React.js, Next.js

**Angular Core:** Standalone Components, Reactive Forms, Routing, Route Guards, Dependency Injection, HttpClient, Interceptors, Pipes, Directives, Lifecycle Hooks

**State Management:** RxJS, Observables, NgRx, Angular Signals

**Architecture & Performance:** Microfrontends, Module Federation, Lazy Loading, Code Splitting, OnPush Change Detection, TrackBy

**APIs & Data:** REST APIs, GraphQL, JSON, Firebase, Strapi (Headless CMS)

**Web Standards:** Responsive Design, Cross-Browser Compatibility, WCAG 2.1, ARIA, Flexbox, CSS Grid

**Testing:** Jasmine, Karma, Jest, Unit Testing, Chrome DevTools

**Tools & DevOps:** Git, GitHub, GitLab, Azure DevOps, CI/CD, Vercel, Webpack, NPM, Postman, Figma, JIRA

**Other:** ASP.NET MVC, Umbraco CMS, jQuery

**AI Tools & Methodologies:** Cursor, Claude, ChatGPT, Gemini, Google AI Studio, Prompt Engineering, Agile Scrum, Sprint Planning, Code Reviews

## PROFESSIONAL EXPERIENCE

**Software Engineer (Frontend Angular Developer)** | Inspire Infosol Pvt. Ltd., Hyderabad | Jan 2023 – Present

- Develop and maintain enterprise airline booking applications for Flyadeal and Jazeera Airways using Angular, TypeScript, RxJS, NgRx, and Angular Signals, supporting 10,000+ daily active users.
- Built 40+ reusable components for a shared UI library and converted 30+ Figma screens into pixel-accurate, responsive Angular interfaces.
- Integrated 20+ REST and GraphQL APIs through Angular services, HttpClient, and interceptors, managing application state with NgRx.
- Improved application performance with lazy loading, code splitting, OnPush change detection, and Angular Signals, and contributed to a Module Federation microfrontend architecture.
- Wrote unit tests with Jasmine, Karma, and Jest, maintaining ~80% code coverage on owned modules, and resolved WCAG 2.1 accessibility issues using ARIA best practices.
- Reviewed 100+ pull requests and mentored 3+ junior developers on Angular best practices, delivering features in Agile Scrum teams with CI/CD pipelines on Azure DevOps.
- Built UI for the PVFin and career platforms using JavaScript, jQuery, Kendo UI, ASP.NET MVC, and Umbraco CMS.

## PROJECTS

**OurPGTracker – PG Management SaaS (Personal Product, Live)** | ourpgtracker.in

- Designed, built, and launched a PG management SaaS product end to end, now used by a paying customer on a monthly subscription to manage 119 beds.
- Developed owner dashboards, bed and occupancy tracking, member management, and payment-tracking workflows.
- Deployed on Vercel with a custom GoDaddy domain, handling hosting, releases, and customer support independently.

- **Tech:** Angular, TypeScript, Firebase, Vercel

**Flyadeal Airlines – Airline Booking System**

- Developed a large-scale booking platform with 25+ screens covering Guest, Member, and Agent flows.
- Built flight search, seat selection, ancillaries, and self-service booking modification features using reusable components, NgRx, and REST APIs.
- **Tech:** Angular, TypeScript, RxJS, NgRx, Angular Signals, Angular Material, SCSS, REST APIs, Git

**Jazeera Airways – Airline Booking System**

- Enhanced the booking flow, flight listings, seat selection, fare summary, and flight-change modules used by 5,000+ customers.
- Built responsive, performance-focused components for a consistent experience across devices.
- **Tech:** Angular, TypeScript, RxJS, HTML5, SCSS, REST APIs

**PVFin – Solar PV System Calculation Platform**

- Developed responsive UI features and reusable widgets for a solar profitability calculation platform, and handled debugging and cross-browser fixes.
- **Tech:** ASP.NET MVC, HTML5, CSS3, SCSS, JavaScript, jQuery, Bootstrap, Kendo UI

## CERTIFICATIONS & TRAINING

- **Security Awareness Training 2026** – Inspire Infosol India LLP, Information Security Programme | Sep 2026 | Score: 100% | Certificate ID: SAT-2026-RKH8SNFU

## EDUCATION

**Bachelor of Science (B.Sc.) in Chemistry** | Degloor College, Degloor (Swami Ramanand Teerth Marathwada University, Nanded) | 2020 – 2023

## ADDITIONAL INFORMATION

**Languages:** English, Hindi, Marathi, Kannada, Telugu
